

# Wombat - 2016

Making mountains out of molehills

Dr Zoe van Havre

11 February 2016

# About me

## Background

- ▶ Bayesian statistician

# About me

## Background

- ▶ Bayesian statistician
- ▶ Joint PhD from QUT & Paris Dauphine

# About me

## Background

- ▶ Bayesian statistician
- ▶ Joint PhD from QUT & Paris Dauphine
- ▶ methods for mixture and hidden Markov models with an unknown number of groups

# About me

## Background

- ▶ Bayesian statistician
- ▶ Joint PhD from QUT & Paris Dauphine
- ▶ methods for mixture and hidden Markov models with an unknown number of groups
- ▶ interested in data driven, accessible, intuitive tools which \*make data analysis easier\*

# Why care about statistics?

The most common question I have been asked since starting to pursue Statistics has been “**Why...**?”

I can share my reasons

1. a sense of urgency

# Why care about statistics?

The most common question I have been asked since starting to pursue Statistics has been “**Why...**?”

I can share my reasons

1. a sense of urgency
2. tantalizing hope

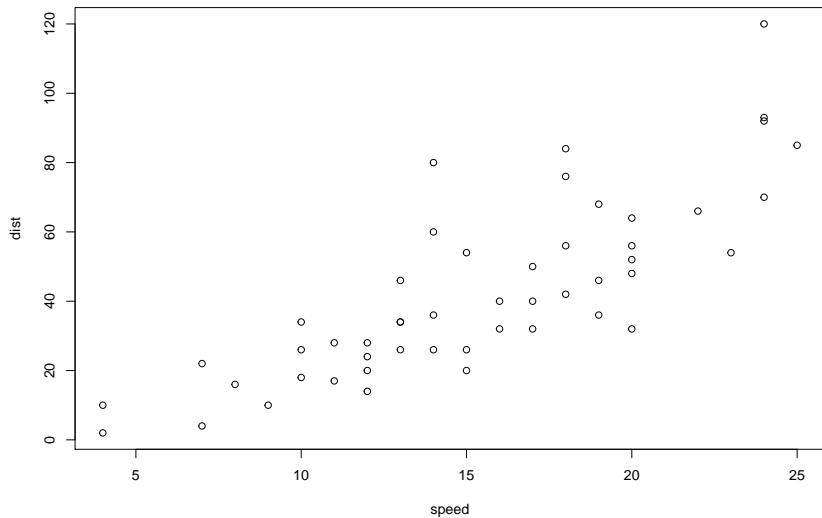

# Why care about statistics?

The most common question I have been asked since starting to pursue Statistics has been “**Why...**?”

I can share my reasons

1. a sense of urgency
2. tantalizing hope
3. boundless excitement
